Report	TAS-LL-2026-001	Prepared for	Sample file, no client attached
Date	02 September 2026	Prepared by	Tasalee Analysing Department
Asset class	Open plot, no structure	Branch	A, revenue estate
Area	500 gaj, about 4,500 sq ft	Listed price	Rs 18,000 per gaj

How to read this file

The score	A weighted average of every parameter that applies to this asset class. A small number of findings cap the score outright instead of pulling the average down, because a missing approval is not something a good kitchen makes up for.
The coverage	How many of the applicable parameters were actually assessed. A high score on thin coverage is a weaker claim than a lower score on full coverage, so both are printed together and never one without the other.
The price	A negotiating position, not a valuation certificate. It is built from registered transactions in the same tower or the same sector, and the argument behind it is set out in full later in this file.
The sources	Every finding names where it came from and how strong that source is, from a certified record down to something a seller asserted. Anything we could not verify is written as unverified.

What is wrong here

This file scores 45 out of 100 and reads as high caution. One finding sets the ceiling: required noc or land use permission is absent. Everything below is worth reading, but nothing below changes that until it is resolved.

NOC from Relevant Authorities

Knockout

Residential NOC and land use clarity pending. This is material, no payment before it is resolved. This caps the score at 45 until it is resolved.

Liquidity / Ease of Resale

Material

Dairy farm micro market and railway proximity limit the buyer pool badly.

Price per sq. yard benchmarking

Negotiable

Sixteen percent above fair value for the belt.

Connectivity to Major Roads / Highways

Negotiable

Poor approach road.

Title Deed Clarity

Verified

Name of Mukhtiyari Devi matches across registration, intaqal and the bhulekh title chain.

Bhulekh / Land Records Match

Verified

Title chain is continuous, no jump in transfer.

Parcel identity

Revenue estate. Khasra and khewat are live and the jamabandi is authoritative for ownership, though it proves nothing about encumbrance or litigation.

Khewat	174	Village	Jatan
Khatauni	303	Tehsil	Sonipat
Khasra	5073/4829/155	Owner Of Record	Mukhtiyari Devi
Area Recorded	5-16 kanal marla		

Ownership and title chain

Every registered transfer, with the parties, instrument and consideration as recorded. An instrument that does not move title is marked.

Year	Instrument	Moves title	From	To	Consideration	Registry
2016	Jamabandi entry	Unclear		Mukhtiyari Devi		Khewat 174
2011	Bainama, sale deed	Yes	Ram Kuwar	Mukhtiyari Devi	Rs 6.2 lakh	18283 bai
2004	Virasat, inheritance	Yes	Prabhu	Ram Kuwar	nil	18073 virasat

Score by category

Category	Score	Weight	Reading
Legal Safety	80.5	10.1%	Title, ownership, encumbrance and litigation. The heaviest block on any resale file and the only one that can void a purchase outright.
Neighborhood Quality	56	1.1%	Connectivity, air, water, drainage and what is planned nearby.
Financial Viability	50	1.7%	Price against registered comparables, yield, liquidity and the cost of exit.

Every parameter assessed

All 12 parameters applicable to this asset class, with the score given, the tier of evidence behind it, its weight in the total, and the observation recorded. Rows marked KO cap the overall score.

#	Parameter	Category	Score	Evidence	Wt	Verdict	Observation
1	Title Deed Clarity KO	Legal Safety	4.6	Primary online record	1.3	Clear	Name of Mukhtiyari Devi matches across registration, intaqal and the bhulekh title chain.
2	Bhulekh / Land Records Match KO	Legal Safety	4.5	Primary online record	1.3	Clear	Title chain is continuous, no jump in transfer.
3	Intaqal (Mutation) Completed KO	Legal Safety	4.2	Primary online record	1.3	Clear	Recent transfer is recorded with the revenue authority.
4	Registered Encumbrances KO	Legal Safety	4	Primary online record	1.3	Clear	No pending complaint or case found on the land.
5	NOC from Relevant Authorities KO	Legal Safety	2	Official secondary	1.3	Knockout	Residential NOC and land use clarity pending. This is material, no payment before it is resolved.
6	Pending Civil/Criminal Cases on Title KO	Legal Safety	4.5	Primary online record	1.3	Clear	No case on the owner that would question legitimacy.
7	Seller Identity & Authority KO	Legal Safety	4.4	Field verification	1.3	Clear	Seller is clean, not selling shared property alone.
8	Document Authenticity Verification	Legal Safety	4	Party supplied	1.3	Clear	Documents look genuine but only photocopies were seen.
9	Price per sq. yard benchmarking	Financial Viability	3	Official secondary	0.8	Verify	Sixteen percent above fair value for the belt.
10	Liquidity / Ease of Resale	Financial Viability	2	Field verification	0.8	Risk	Dairy farm micro market and railway proximity limit the buyer pool badly.
11	Connectivity to Major Roads / Highways	Neighborhood Quality	2.6	Field verification	0.5	Risk	Poor approach road.
12	Flooding / Drainage Risk	Neighborhood Quality	3	Field verification	0.5	Verify	Railway adjacent, drainage not verified in monsoon.

Coverage, sources and limits

HARIS deed records for the Sonipat sub registrar are digitised from 2004. The 2004 inheritance and anything before it rests on the revenue record rather than the deed registry.

No certified copy was obtained for this free screen. A conclusion on title suitable for a lender needs one.

12 of 12 applicable parameters were assessed, which is 100 percent coverage. The mean evidence confidence is 0.71 on a scale where a certified record is 1.00 and an undocumented assertion is 0.15.

The weighted average of the parameters below is 74.5. It is reported as 45 because required noc or land use permission is absent. A finding of that kind caps the score rather than being averaged against the rest of the file, because it changes what the asset is rather than how good it is.

Sources consulted

Source	Retrieved	Tier	Disclosure
Jamabandi Nakal	12 Jan 2026	2	Revenue record as at the 2016 to 2017 jamabandi for Jatan, tehsil Sonipat. Online copy, unsigned.
Mutation register	12 Jan 2026	2	Swept for Sonipat tehsil, 2000 to 2026.
eCourts	12 Jan 2026	2	Mukhtiyari Devi and Ram Kuwar searched across Sonipat district courts. Nothing found.
Site visit	14 Jan 2026	4	Approach road, boundary and drainage observed. Photographs on file.

This health card records what the government record showed on the dates stated, and what a qualified inspector observed on site where an inspection was carried out. Online revenue records are unsigned and marked reference only by the issuing portal; where a conclusion on title depends on one, a certified copy was obtained and is listed above. Records before a sub registrar's digitisation date are not searchable online and were not searched unless separately noted. Tasalee is not a law firm and this is not a legal opinion or a title certificate. It is a due diligence assessment intended to inform a commercial decision and a negotiating position.
